F-29
1917-18
14306

The CO-OPERATIVE STATISTICS for 1917-18 are shown below in CIRCLES, whose areas are proportional to the POPULATION of each Province. The SHADED SECTORS represent the three principal statistics, as shown. The AREAS of related sectors are proportional to the statistics concerned. The INCLUDED ANGLES show the relation of statistics to Population.

Progress of the Co-operative Movement in India. 1907-18.

For COORG and

AJMER

the statistics are too large to be shown.

C. Operations of non-Agricultural Societies	11
D. Operations of Unions	13
E. Operations of Cattle Insurance Societies	14
F. Operations of Central Re-insurance Societies	14
Population map of India showing Provincial Statistics	<i>At end.</i>

EXPLANATORY NOTE.

1. The statements are arranged as shown under "Contents" on the opposite page, and have been compiled on the lines recommended by the Committee on Co-operation.

2. **The Abstract Tables** indicate some of the leading features of progress in the co-operative movement during the past year, and show the numbers of societies and members, and the working capital both for the whole of India and by Provinces. These abstracts are illustrated by diagrams in the Frontispiece and also in the Population Map at the end of the tables.

N. B.—In *Abstract Tables II and III*, when comparing the figures for the year 1917-18 with the figures for years prior to 1915-16, the following points should be borne in mind :—

- (i) that in the case of Guaranteeing Unions and Re-insurance Societies the number of members represents the number of affiliated societies and not the number of individual members included in such societies ;
- (ii) that the figure for the number of members of agricultural societies given in *Abstract Table II* no longer includes the number of members of Cattle Insurance Societies as these are not given in *Statement E* ;
- (iii) that the total number of members in *Abstract Table II* is not the sum total of the preceding four items but that of agricultural and non-agricultural only, the assumption being that all individual members of Central and Provincial Banks, Banking Unions, and Guaranteeing Unions have already figured once as members of an Agricultural or non-agricultural primary society ;
- (iv) that the figures for working capital given in *Abstract Table III* no longer include the working capital of Unions, Cattle Insurance and Re-insurance Societies as these are not furnished in *Statements D, E and F*, respectively ;
- (v) that with effect from the year 1915-16 the loans and deposits of society-members have been transferred in *Abstract Table III* from the head "Loans and deposits held at the end of the year from members" to the head "Loans and deposits held at the end of the year from societies," and that the latter head no longer includes loans and deposits from Provincial or Central Banks for which a separate head has been provided ; and
- (vi) that with effect from the same year the figure given against the head "Loans and deposits held at the end of the year from non-members and other sources," includes all loans and deposits held by Central and Provincial Banks from individuals, Joint Stock Banks, and other sources not included against the preceding headings.

3. **The General Statements** give a detailed record of the main statistics relating to co-operative societies in the several provinces in India during the year 1917-18. The figures are taken from the advance tabular statements forwarded by the Registrars of Co-operative Societies for the last year and relate to societies of a co-operative nature in all the British Provinces except Delhi, the North-West Frontier Province and Baluchistan, where the movement has as yet made little progress. Figures for the Native States of Mysore, Baroda and Hyderabad have been included, Hyderabad appearing for the first time in this year's statements.

Statement A exhibits the operations of Central Banks and shows figures separately for Provincial Banks and for Central Banks including District Banks, Banking Unions and all other societies constituted with the object of lending to individual societies and tapping deposits from a larger area than that of the primary agricultural or non-agricultural society. The figures for Unions other than Banking Unions have been excluded from this statement and are shown in a separate *Statement D*. The total number of Banks has risen during the year from 264 to 282, with a membership and working capital of 91,494 and Rs. 580 lakhs as against 76,475 and Rs. 485 lakhs, respectively, last year. The net profit resulting from the operations of these Banks has increased to Rs. 11,53,758.

Statements B and C show the operations of the agricultural and non-agricultural primary societies in the same form. It will be observed that the number of such societies has increased during the year from 20,990 agricultural and 1,237

non-agricultural to 23,742 agricultural (excluding insurance societies) and 1,450 non-agricultural societies respectively. The total membership and working capital at the close of the year were as follows :

	No. of — members.	Capital. Rs.
Agricultural	8,51,407	689 lakhs.
Non-Agricultural	2,03,837	171 „
Total ..	10,55,244	860 lakhs.

The following are the profits resulting from the operations of these societies :—

	Rs.
Agricultural societies	27,32,407
Non-Agricultural Societies	8,23,164
Total ..	35,55,571

Statement D shows the operations of Unions which either supervise only or both supervise and guarantee. Unions which do banking business are classed as Central Banks and are included in *Statement A*.

Statement E shows the operations of cattle insurance societies. These societies at present exist in Bombay, Bengal, United Provinces, Punjab, Burma and Coorg only.

Statement F exhibits statistics pertaining to central re-insurance societies, that is to say, societies which, in return for a definite share of the insurance premia of the affiliated societies, undertake a definite share of their risks. The only society of this type at present exists in Burma.

ABSTRACT TABLE I (a)—Number of Societies for all India, showing the increase since 1906.

	Average for 4 years from 1906 to 1910.	Average for 4 years from 1910 to 1914.	1914-15.	1915-16.	1916-17.	1917-18.
