Progress of the Co-operative Movement in India. 1907-19.

NOTE - Capital is increasing slightly faster than membership, being now nearly Rs. 142 per member, and the proportion of societies has so increased that the average membership is now less than 39. The capital is Rs. 5411 per society.

Reg No 3805 B., 20.-H-750.

The CO-OPERATIVE STATISTICS for 1918-19 are shown below in CIRCLES, whose areas are proportional to the POPULATION of each Province. The SHADED SECTORS represent the three principal statistics, as shown. The AREAS of related sectors are proportional to the statistics concerned. The INCLUDED ANGLES show the relation of statistics to Population.

COORG and AJMER-MERWARA
For ● and ● the statistics are too large to be shown.

FOR DAY LABOR NOTE

The first of the present volume is the article of the Editors on the subject of the day laborer, which is a very interesting and important one.

The second article is by the same authors and is a continuation of the first, dealing with the subject of the day laborer's organization.

The third article is by the same authors and is a continuation of the first, dealing with the subject of the day laborer's organization.

The fourth article is by the same authors and is a continuation of the first, dealing with the subject of the day laborer's organization.

The fifth article is by the same authors and is a continuation of the first, dealing with the subject of the day laborer's organization.

The sixth article is by the same authors and is a continuation of the first, dealing with the subject of the day laborer's organization.

The seventh article is by the same authors and is a continuation of the first, dealing with the subject of the day laborer's organization.

The eighth article is by the same authors and is a continuation of the first, dealing with the subject of the day laborer's organization.

The ninth article is by the same authors and is a continuation of the first, dealing with the subject of the day laborer's organization.

The tenth article is by the same authors and is a continuation of the first, dealing with the subject of the day laborer's organization.

The eleventh article is by the same authors and is a continuation of the first, dealing with the subject of the day laborer's organization.

The twelfth article is by the same authors and is a continuation of the first, dealing with the subject of the day laborer's organization.

EXPLANATORY NOTE.

1. The statements are arranged as shown in the table of "Contents" on the opposite page, and have been compiled with certain modifications on the lines recommended by the Committee on Co-operation.

In 1919 the Government of India in the Department of Revenue and Agriculture decided to transfer the work of compiling these statements to the Department of Statistics, and this is the first of the series of the publication issued by this Department.

2. **The Abstract Tables** indicate some of the leading features of progress in the co-operative movement during the year 1918-19, and show the numbers of societies and members, and the working capital both for the whole of India and by Provinces. These abstracts are illustrated by diagrams in the Frontispiece and also in the Population Map at the end of the tables.

In Abstract Tables II and III, when comparing the figures for the year 1918-19 with the figures for years prior to 1915-16, the following points should be borne in mind:—

- (i) that in the case of Guaranteeing Unions and Re-insurance Societies the number of members represents the number of affiliated societies and not the number of individual members included in such societies;
- (ii) that the total number of members in Abstract Table II is not the sum total of the preceding four items but that of agricultural and non-agricultural societies only, the assumption being that all individual members of Central and Provincial Banks, Banking Unions, and Guaranteeing Unions have already figured once as members of an agricultural or non-agricultural primary society;
- (iii) that the figures for working capital given in Abstract Table III do not include the working capital of Unions, Cattle Insurance, and Re-insurance Societies as these are not furnished in Statements D, E, and F, respectively;
- (iv) that with effect from the year 1915-16 the loans and deposits of society-members have been transferred in Abstract Table III from the head "Loans and deposits held at the end of the year from members" to the head "Loans and deposits held at the end of the year from societies," and that the latter head no longer includes loans and deposits from Provincial or Central Banks for which a separate head has been provided; and
- (v) that with effect from the same year (1915-16) the figure given against the head "Loans and deposits held at the end of the year from non-members and other sources," includes all loans and deposits held by Central and Provincial Banks from individuals, Joint Stock Banks, and other sources not included against the preceding headings.

3. **The General Statements** give a detailed record of the main statistics relating to co-operative societies in the several provinces in India during the year 1918-19. The figures are taken from the advance tabular statements forwarded by the Registrars of Co-operative Societies for that year and relate to societies of a co-operative nature in all the British Provinces except Delhi, the North-West Frontier Province, and Baluchistan, where the movement has as yet made little progress. Figures for the Indian States of Mysore, Baroda, and Hyderabad have been included.

Statement A exhibits the operations of Central Banks and shows figures separately for Provincial Banks and for Central Banks including District Banks, Banking Unions, and all other societies constituted with the object of lending to individual societies and tapping deposits from a larger area than that of the primary agricultural or non-agricultural society. The figures for Unions other than Banking Unions have been excluded from this statement and are shown in a separate Statement D. The total number of Banks during the year 1918-19 rose from 282 to 333, with a membership and working capital of 107,747 and over Rs. 7,29 lakhs, as against 91,494 and Rs. 5,81 lakhs, respectively, in 1917-18. The net profit resulting from the operations of these Banks also increased from Rs. 11,53,758 to Rs. 13,70,781 in 1918-19.

Statements B and C show the operations of the agricultural and non-agricultural primary societies in the same form. It will be observed that the number of such societies increased during the year from 23,741 agricultural (excluding insurance societies) and 1,451 non-agricultural to 28,977 agricultural (excluding insurance societies) and 1,971 non-agricultural societies respectively. The total membership and working capital at the close of the year were as follows:—

	1918-19.	
	Members.	Capital.
Agricultural	No. 967,318	Rs. (lakhs) 8,09
Non-Agricultural	261,675	2,17
Total	1,228,993	10,26

The following are the profits resulting from the operations of these societies:—

	Rs.
Agricultural Societies	29,94,993
Non-agricultural Societies	8,92,232
Total	38,87,225

Statement D shows the operations of Unions which either supervise only or both supervise and guarantee. Unions which do banking business are classed as Central Banks and are included in *Statement A*.

Statement E shows the operations of cattle insurance societies. These societies at present exist in Bombay, Bengal, the United Provinces, the Punjab, Burma, and Coorg only.

Statement F exhibits statistics pertaining to central re-insurance societies, that is to say, societies which, in return for a definite share of the insurance premia of the affiliated societies, undertake a definite share of their risks. The only society of this type at present exists in Burma.

D. N. GHOSH,

Offg. Director of Statistics.

DEPARTMENT OF STATISTICS, INDIA. }

Calcutta, May 4, 1920. }
