Progress of the Co-operative  
Movement in India. 1907-20.

The CO-OPERATIVE STATISTICS for 1919-20 are shown below in CIRCLES, whose areas are proportional to the POPULATION of each Province. The SHADED SECTORS represent the three principal statistics, as shown. The AREAS of related sectors are proportional to the statistics concerned. The INCLUDED ANGLES show the relation of statistics to Population.

For COORG and AJMER-MERWARA, the statistics are too large to be shown.

NOTE.—Capital is increasing slightly slower than membership, being now nearly Rs. 141 per member, and the proportion of societies has so increased that the average membership is now slightly over 37.

The capital is over Rs. 5,250 per society.

## EXPLANATORY NOTE.

1. This is the second of the series of the publication styled "Statements showing progress of the Co-operative Movement in India" issued by this Department under instructions from the Government of India in the Department of Revenue and Agriculture. The statements are arranged as shown in the table of "Contents" on the opposite page, and have been compiled with certain modifications on the lines recommended by the Committee on Co-operation in India, 1915.

2. **The Abstract Tables** indicate some of the leading features of progress in the co-operative movement during the year 1919-20, and show the numbers of societies and members and the working capital, both for the whole of India and by Provinces. These abstracts are illustrated by diagrams in the frontispiece and also in the Population Map at the end of the tables.

*In Abstract Tables II and III,* when comparing the figures for the last five years, 1915-16 to 1919-20 with the figures for years prior to 1915-16, the following points should be borne in mind :—

- (i) that in the case of Guaranteeing Unions and Re-insurance Societies the number of members represents the number of affiliated societies and not the number of individual members included in such societies;
- (ii) that with effect from 1917-18 individual members of Central and Provincial Banks, Banking Unions, and Guaranteeing Unions are not included in the total number of members shown in Abstract Tables II(a) and II(b) as it is assumed that these have already figured once as members of an agricultural or non-agricultural primary society;
- (iii) that the figures for working capital given in Abstract Table III do not include the working capital of Unions, Cattle Insurance, and Re-insurance Societies as these are not furnished in Statements D, E, and F, respectively;
- (iv) that with effect from the year 1915-16 the loans and deposits of society-members have been transferred in Abstract Table III from the head "Loans and deposits held at the end of the year from members" to the head "Loans and deposits held at the end of the year from societies," and that the latter head no longer includes loans and deposits from Provincial or Central Banks for which a separate head has been provided; and
- (v) that with effect from the same year (1915-16) the figure given against the head "Loans and deposits held at the end of the year from non-members and other sources," includes all loans and deposits held by Central and Provincial Banks from individuals, Joint Stock Banks, and other sources not included against the preceding headings.

3. **The General Statements** give a detailed record of the main statistics relating to co-operative societies in the several provinces in India during the year 1919-20. The figures are taken from the advance tabular statements forwarded by the Registrars of Co-operative Societies for that year and relate to societies of a co-operative nature in all the British Provinces except the North-West Frontier Province and Baluchistan, where the movement has as yet made little progress. Figures for the Indian States of Mysore, Baroda, Hyderabad, and Bhopal have been included.

*Statement A* exhibits the operations of Central Banks and shows figures separately for Provincial Banks and for Central Banks including District Banks, Banking Unions, and all other societies constituted with the object of lending to individual societies and tapping deposits from a larger area than that of the primary agricultural or non-agricultural society. The figures for Unions other than Banking Unions have been excluded from this statement and are shown in a separate Statement D. The total number of Banks during the year 1919-20 rose from 333 to 400, with a membership and working capital of 127,026 and over Rs. 8,85 lakhs, as against 107,017 (revised figure) and Rs. 7,29 lakhs, respectively, in 1918-19. The net profit resulting from the operations of these Banks also increased from Rs. 13,70,781 to Rs. 17,50,678 in 1919-20.

*Statements B and C* show the operations of the Agricultural and non-agricultural primary societies in the same form. It will be observed that the number of such societies increased during the year from 28,977 agricul-
