REPORT

ON THE

ADMINISTRATION

OF THE

NORTHERN INDIA SALT REVENUE DEPARTMENT

FOR THE

OFFICIAL YEAR 1915-16.

The gross revenue of the Department, Rs. 1,36,60,703, showed a decrease as compared with that of Appendix I. 1914-15 of Rs. 9,67,129, or 66.1 per cent.

The sales of duty paid salt, maunds 1,12,39,247, were less by maunds 12,39,388 or 9.93 per cent.

In 1914-15 the normal figures of revenue were swollen by large payments made in anticipation of an increase of the duty on salt. During the year under report pre-Budget speculation also took place but not to the same extent as in the previous year and was checked by the orders issued under Ordinance II of 1916 referred to in paragraph 4 below.

The total charges, Rs. 15,28,469, were more by Rs. 2,09,321, or 15.87 per cent, than those of the preceding year. The percentage of charges on gross receipts was 11.19 as compared with 9.02 in 1914-15. The net receipts, not taking into account treaty payments, amounted to Rs. 1,21,32,234, or Rs. 11,76,450 less than in 1914-15, and, taking all treaty payments into account, they amounted to Rs. 88,63,113.

2. Refunds amounted to Rs. 71,167 as compared with Rs. 44,347 in 1914-15. The following rebates of duty were Particulars of charges. paid: -(a) Rs. 31,063 on account of salt used for industrial purposes, as against Rs. 18,350 in 1914-15, (b) half duty amounting to Rs. 38,000 due under Agreement to the Bikaner Darbar as against Rs. 25,523 in 1914-15, and (c) Rs. 2,104 on account of miscellaneous items. The increase under (a) is due to the payment of certain claims made in 1914-15 being held over until the year under report pending enquiries in regard to the status of the firms concerned which were suspected of being hostile. The increase under (b) is due to larger clearances of salt by the Bikaner Darbar. The miscellaneous items include two sums of Rs. 998-7-0 and Rs. 512-14-3, respectively, representing payments for salt into a post office in the former case and a treasury in the latter. The sums were refunded and the indent for salt cancelled on the application of the traders concerned without reference to this Department which was against account rules. Further, the traders were not entitled to a refund as it is a recognised rule of the Department that once a payment for salt is made the contract for its delivery is completed. Steps have been taken to prevent a recurrence of such cases.

The fixed charges of the Department, Rs. 5,14,833, were more by Rs. 6,149, or 1.21 per cent, than those of 1914-15. The contingent charges, Rs. 9,42,469, were more by Rs. 1,76,352, or 23.02 per cent. The expenditure on the manufacture of salt at the Rajputana Salt Sources increased by Rs. 1,20,566 owing to enhancement of wages and increased output and that on the excavation of rock salt in the cis-Indus Mines Division by Rs. 32,756 owing to the increased rates of excavation sanctioned by the Government of India in Commerce and Industry Department letter No. 10889-70, dated 6th October 10NISR

1914. The expenditure on account of travelling allowances, conveyance of tents and records, hot weather charges, service postage and telegrams, half fine rewards, uniforms, water supply, petty construction and repairs and miscellaneous charges increased by Rs. 24,917, while the expenditure on purchase and repair of tents, house rent, stationery charges and clearance of through traffic salt decreased by Rs. 10,827. Compensation allowance for dearness of food grain amounting to Rs. 16,702 was paid during the year as compared with Rs. 7,762 during the previous year.

3. The Treaty payments during the year amounted to Rs. 32,69,121. The royalty payments on account of Sambhar salt amounted to Rs. 4,40,673 as against Rs. 3,28,987 in 1914-15. The issues of salt by the Department to the United Provinces of Agra and Oudh, Rajputana, Central India and the Central Provinces and Berar amounted to maunds 62,33,336 and the issues by the Bombay Salt Department for the same areas to maunds 40,61,068, but the whole of the Treaty payments are debited to the Northern India Salt Revenue Department.

4. No change was made in the prices of salt during the year under report.

Issue prices of salt and rate of duty. The duty of Rupee 1 a maund remained Appendix II. In force up to the 1st March 1916 from which date it was raised to Rs. 1-4 a maund. The duty on salt issued from the Mandi Mines was also raised from 3 annas to 3 annas and 9 pies a maund, of which the British share is 2 annas and 6 pies instead of 2 annas a maund. To prevent undue loss of revenue from pre-budget speculation orders were issued under Ordinance No. II of 1916, by which the clearances of salt and sitta from the different salt sources and mines and the licensed works controlled by the Department were limited from the 20th January to 29th February 1916 to quantities based on the issues of the corresponding periods of normal years. Rs. 6,39,520 were realized during the year on account of excess duty on maunds 25,58,081 at 4 annas a maund and Rs. 4,05,725 remained to be realized on the same account on maunds 16,22,902 of salt, at the close of the year.

5. As compared with 1914-15, there was an increase in the average retail

Sale prices of salt.
Appendix XII.

ix XII which was chiefly due to the holding up of stocks, the shortage of rolling stock and the speculation, in anticipation of an enhancement of duty, that took place during the months that immediately preceded the Budget announcement. The large increase against Bihar during the year is also due to the high freights that prevailed.

The Jodhpur State raised the Raj duty on all salt sold in the State from Re. 1-0-0 to Rs. 1-4-0 a maund with effect from the 1st March 1916.

6. The accounts of 1914-15 were compared with those of the Comptroller, Comparison of the Departmental and Treasury of revenue are more than the Treasury credits by Rs. 266-7-6. The difference, which has been reconciled, is mainly due to certain items having been credited in different years in the accounts of the Comptroller, India Treasuries, and in the departmental accounts.

The charges debited against this Department in the Treasury accounts are more by Rs. 1,708-4-3 than in the departmental accounts. This difference cannot now be reconciled.

- 7. Two appointments in the superior executive grade were offered for Admission to the Superior Executive grades of the competition, twelve candidates being Department.

 nominated, The examination was held in April 1916. Messrs. Shiv Charan Das and E. Goodwin, the successful candidates, have been appointed Probationary Assistant Superintendents.
- 8. The salt tracts and closed salt works of the Mewar State, including the Deputation of officers to Native States.

 Chaurasi Jagir in the Shahpura State, were inspected with satisfactory results. Allusion was made in paragraph 9 of the Annual Report for the year 1907-08 to the levy of certain taxes and dues on salt at various places in the Mewar State which appeared to be virtually transit duties. As a result of the enquiries since instituted the Government of India have now decided that such taxes and dues are not transit duties within the meaning of Article III of the existing salt agreement with the Mewar Darbar.

The Punjab border adjoining the Bikaner State was not patrolled during the year owing to shortage of officers.

9. Maunds 1,11,35,476 of full duty paid salt were sold during the year, or maunds 12,66,104 (10·21 per cent) less than in the preceding year. The sales of Rajputana Salt, which amounted to maunds 64,72,172, were less by maunds 10,19,001, or 13·60 per cent. The sales of Sambhar and Didwana salt decreased by maunds 10,22,127 and 32,868, respectively, while those of Pachbadra salt increased by maunds 35,994. The popularity of Pachbadra salt is steadily increasing. The sales of cis-Indus and Kalabagh Mines rock salt, maunds 40,25,040 and those of Kohat rock salt, maunds 5,09,934, fell off during the year by maunds 2,04,543 and 71,417, respectively. The sales of Sultanpuri salt, maunds 37,854 and of saltpetre salt, maunds 90,476, increased by maunds 10,818 and 18,039, respectively.

The issues of full duty paid salt, maunds 1,06,26,910, were less by maunds 6,47,184, or 5.74 per cent, than those of the previous year. The uncleared balance at the close of the year was at Sambhar maunds 15,61,112, at Didwana maunds 36,990, at Pachbadra maunds 3,88,482 and in the cis-Indus and Kalabagh Mines Division maunds 3,90,192.

- 10. The sales of Mandi salt, maunds 1,03,771, were more by maunds 26,716, or 34.67 per cent, than those of the previous year. There was no uncleared balance at the Mandi Mines at the close of the year.
- 11. The sales of salt free of duty, maunds 2,24,907, were less by maunds 5,468, or 2.37 per cent, than those of the previous year, the decrease occurring in the sales for the Jodhpur State. The issues of duty free salt, maunds 1,92,472, also fell off by maunds 37,903, or 16.45 per cent, as compared with the previous year.

Maunds 24,510 of salt, free of both price and duty, were issued from Sambhar and maunds 9,023 from Pachbadra. These quantities comprise maunds 29,723 to the Jaipur and Jodhpur Darbars and maunds 1,000 to the Udaipur Darbar, free of clearance charges as well as of duty and price.

12. Maunds 55,410 of salt were issued during the year, maunds 252 from Salt issued to Bikaner on payment of half duty. Appendix III. Sambhar, maunds 35,968 from Didwana and maunds 19,190 from Pachbadra, to private traders of the Bikaner State on payment of price and full duty.

13. The sales of full duty paid Sambhar salt, maunds 51,04,599, and the Rajputana Salt Sources. Sambhar.

Sambhar. Sales and issues and distribution of salt. Appendices II, III and VI.

Pared with 1914-15. The decrease in sales is due to the overstocking of marts as a result of the abnormal sales of the past year.

Of the quantities consigned to the various provinces, the United Provinces of Agra and Oudh took maunds 30,49,961, Bihar maunds 3,63,407, the Central Provinces maunds 76,002, Central India maunds 4,67,133, Rajputana maunds 7,35,692, the Delhi Province maunds 93,425 and the Punjab, including Feudatory States, maunds 1,03,777.

14. The total quantity of salt, maunds 71,53,042, extracted during the official year was more by maunds 31,57,163 or 79.00 per cent, than in 1914-15.

Maunds 59,98,408 of Kyar salt and maunds 11,54,634 of "Pan" salt were extracted as compared with maunds 32,23,913 of Kyar salt and maunds 7,71,966 of "Pan" salt in 1914-15. The Kyar salt manufactured in the Kyars at Sambhar amounted to maunds 20,83,174 from lake brine, maunds 7,90,179 from canal brine and maunds 10,45,663 from lake and canal brine in admixture. The manufacture of Kyar salt from lake brine began at Sambhar on the 17th September 1915 and from canal brine on the 4th March 1916. At Nawa and Jhapog the extraction of Kyar salt commenced on 12th October 1915 and 17th September 1915, respectively. The manufacture of "Pan" salt commenced at Gudha and Nawa on the 2nd October 1915. No "Pan" salt was manufactured at Sambhar.

15. The total rainfall during the year amounted to 14.57 inches at Sambhar and 8.69 inches at Nawa as compared Rainfall and character of season. with 32.92 and 24.50 inches, respectively, during 1914-15. The fall was less by 5:17 inches than the average for the last 44 years from 1871-72 to 1914-15. At Sambhar it rained on 2 days in April, the fall registered being 1.07 inches, on 3 days in July, the fall being 1.39 inches, on 7 days in August, the fall amounting to 8.84 inches and on 4 days in October, the fall amounting to 1.43 inches. During the months of May, June, September and December only light falls were received and the months of November and January to March were rainless. The movsoon commenced early in June and closed in October 1915. The total rainfall from 1st July to 30th September 1915 amounted to 10.79 inches as compared with 26.31 inches during the corresponding period of 1914. The depth of brine in the lake, as measured at the guages on the 10th September 1915, was nil at Sambhar, Gudha and Nawa and 5 inches at Jhapog as compared with 20 inches at Sambhar, 81 inches at Gudha, 10 inches at Nawa and 18 inches at Jhapog on the same date in the preceding year. The highest depths of brine at the guages were 6 inches at Sambhar, 8 inches at Jhapog and 2½ inches at Nawa.

16. Manufacturing operations commenced comparatively early this season. By the close of the season maunds the Sambhar Lake.

Outturn of salt for the manufacturing season at the Sambhar Lake.

By the close of the season maunds 33,96,562 of Kyar salt, maunds 2,28,418 of Reservoir salt and maunds 10,05,446 of "Pan" salt had been extracted and stored. Of the total "Pan" salt extracted maunds 2,43,020 were obtained from the experimental pans worked by the Department. The total season's yield amounted to maunds 46,30,426 as against maunds 49,25,511 in the preceding year. The balance of salt in stock at the close of the season was maunds 43,67,685 as compared with maunds 53,46,502 in 1915, maunds 61,86,381 in 1914 and maunds 34,15,860 in 1913.

During the year the tramway at Nawa, sanctioned by the Government of India in the Department of Commerce and Industry in letter No. 1363-85,

dated the 6th February 1915, was completed. The total sum expended on the work amounted to Rs. 20,560-5-9. The installation of this tramway has helped materially in the carriage of salt from the Kyar pans to the store heaps. The construction of the feeder canal at Nawa, sanctioned by the Government of India in the Department of Commerce and Industry in letter No. 1229-86, dated the 11th February 1915, was taken in hand in March 1915. It has progressed to a length of 5,000 feet during the year under report.

Owing to scanty rainfall the season was an unfavourable one for manufacture. The supply of brine was scanty, but every effort was made to secure as much brine as possible in the pans. Full advantage was taken of the rainfall in August which alone was of any importance and the work of charging the pans was continued night and day. The brine rose in density very rapidly and salt matured during winter. It was estimated that the total outturn of salt at the lake would amount to maunds 52,00,000, but only maunds 46,30,426 were extracted and stored. Taking into consideration the adverse circumstances mentioned above the results were highly satisfactory.

17. The combined register showing the history of Kyar pans is regularly posted up at each stage of treatment during manufacturing operations. As the monsoon of the year under report was a very poor one, no safe deductions could be drawn from the observations recorded during the past season.

In paragraph 18 of last year's report I observed that I intended to address the Government of India on the subject of the deputation of a trained chemist to Sambhar. This I have since found it unnecessary to do, as Mr. B. K. De, who has recently joined the Department is a graduate in science, including chemistry, and I have deputed him to the office of the Chemical Examiner to the United Provinces of Agra and Oudh, with the kind permission of that officer, to undergo training in the chemical analysis of salt and salt brine and to study the question of the elimination of impurities from salt brine.

18. During the season beginning 1st September 1915 maunds 3,05,438 of
Manufacture of "Kyar" salt from subterra: Kyar salt were manufactured from subnean brine. Erranean brine obtained from the canal
at Sambhar as compared with maunds 7,90,179 in the previous season.

The salt obtained from Nawa Canal brine amounted to maunds 1,29,865.

19. Contracts were given for 2,738 pans (2,392 at Nawa and 346 at Gudha)

"Pan" and "Lake" Salt.

Maunds 11,54,634 of pan salt were extracted during the season as compared with maunds 7,71,966 in the preceding season. The quality of "Pan" salt produced was good. Owing to the famine conditions which prevailed in Rajputana last season labour was cheap and plentiful. The Contractors were therefore able to work on a large scale.

20. The incidence of cost per maund of Kyar salt amounts to Re. 0-0-8-69 compared with Re. 0-0-10-60 in 1914-15 and Re. 0-0-7-22 in 1913-14. The decrease in the cost is due to increased outturn of salt in the year under report with comparatively less expenditure owing to reduction made in the rate of storage. The items included in the cost of manufacture are Rs. 1,94,988 for extraction and storage, Rs. 22,613 expended on repairs to pans and Rs. 53,853 on account of interest on capital account, which amounted, at the close of 1915-16, to Rs. 14,89,944. The actual cost of extraction and storage was 6-24 pies per maund, compared with 5-35 pies in 1914-15 and 4-64 pies in 1913-14. Excluding recoverable advances made to the pan contractors, the net cost of manufacturing "Pan" salt during the year amounted to 5-83 pies per maund, as compared with 5-22 pies in 1914-15 and 5-26 pies in 1913-14.

21. The balance of stock at the close of the year amounted to maunds 46,16,088, Stock balance and results of clearance of heaps as compared with maunds 23,37,489 in during the year.

1914-15 105 heaps, estimated to contain maunds 45,69,214, were cleared during the year and the actual outturn 10NISR

was more by 5.68 per cent. Of the 105 heaps cleared, 4 were stored in 1912-13 and 45 in 1913-14 and scaled 12.29 and 4.21 per cent less, and 56 stored in 1914-15 scaled 18.32 per cent, more than was originally estimated. The work of estimation of both Kyar and "Pan" salt continued to be done by Superintendents and Assistant Superintendents during the year and the results of the clearance of heaps estimated by them was on the whole satisfactory.

22. The usual account of the financial results of the lease of the Sambhar

Financial result of the lease of the Sambhar Lake is given below:—

Lake.

SAMBHAR LAKE.

Stock Accounts.

Salt produced including excesses found on clearance of heaps :-

Down to close of 1914-15	 		Maunds. 17,43,84,045
During 1915-16	 		75,42,146
	Total	-2-	18,19,26,191

Salt cleared from accounts, including sales, free deliveries, wastage and dryage:—

				Maunds.
Down to close of 1914-15		•••	****	17,20,46,556
During 1915-16				52,63,547
		Total		17,73,10,103
Balance of stock at the close	of 1915	-16		46,16,088

Revenue Accounts.

Realizations from sale of salt to date :-

Down to close of 1914-15	 	 Rs. 4,64,57,115
During 1915-16	 	 13,13,447
	Total	 4,77,70,562

Expenditure incurred, including all treaty and Royalty payments, and interest on capital expenditure and cost of upkeep, the principal being excluded:—

Down to close of 1914-15			10.	Rs. 4,14,41,151
During 1915-16		•••	'	13,74,121
		Total		4,28,15,272
Net credit balance at the clo	se of 191	5-16		49,55,290

The net credit balance at the close of the year was less by Rs. 60,674 than that of 1914-15.

The expenditure during the year exceeded the revenue by Rs. 60,674, the stock balance was higher than at the close of 1914-15 by maunds 22,78,599 and the value of this at four annas a maund, Rs. 5,69,650 minus Rs. 60,674, gives a profit of Rs. 5,08,976.

23. The sales of Didwana salt which paid duty, maunds 3,88,686, were less by maunds 32,868, or 7.80 per cent, Appendices II, III and VI. than the sales of 1914-15.

The issues of full duty paid salt, maunds 3,61,543, were less than the sales of 1915-16 by maunds 27,143 and the issues of 1914-15 by maunds 59,322 or 14·10 per cent. The uncleared balance at the close of the year amounted to maunds 36,990. No duty-free salt remained uncleared when the year closed.

The full duty paid salt, issued during the year, was consigned to the Punjab including the Feudatory States and Rajputana.

24. The extraction of salt commenced on 1st April 1915, and closed on the Outturn and stock.

Appendix V.

Maunds 2,99,092 were purchased from the manufacturers. The year opened with a balance of salt in stock of maunds 80,156. An excess on the quantity estimated and originally paid for, amounting to maunds 51,911, was discovered, and added to the stock, of which maunds 30,117 were paid for during the year and payments for the balance, namely, maunds 21,794, have been made after the year closed. Maunds 4,23,593 were sold and the year closed with a balance of maunds 7,566. The cost of extraction and storage was 7.33 pies per maund as compared with 7.47 pies in 1914-15, and 5.5 pies in 1913-14. The price paid to the manufacturers varied in accordance with the quality of the salt, from 3.25 to 3.75 pies a maund.

The rainfall during the year amounted to 3.66 inches as compared with 13.89 inches in 1914-15.

25. The sales of Pachbadra salt which paid duty, maunds 9,78,887, were Pachbadra.

Soles, issues and distribution of salt. Appendices II, III and VI. maunds 7,92,389, were maunds 20,362, or 2.51 per cent, less than those of the previous year. The quantity of duty-free salt, maunds 1,85,000, purchased by the Jodhpur Darbar during the year was the same as last year. The quantity issued was less by maunds 32,435. A balance of duty-paid salt amounting to maunds 3,56,047 and of duty-free salt amounting to maunds 32,435 remained uncleared at the end of the year.

The total issues, maunds 9,53,976, were less by maunds 56,752, or 5.62 per cent, than in 1914-15. The quantities declared at the source for the United Provinces of Agra and Oudh, Central Provinces and Berar, Rajputana, Central India and Sind fell off by maunds 38,199, 24,699, 32,823, 6,764 and 2,272 respectively. Maunds 48,005 were consigned to the Province of Bihar and Orissa during the year under report. No salt was shown as despatched to Bombay, Delhi and the Punjab, including the Feudatory States, during the year.

The quantity purchased by "Banjaras," maunds 569, was maunds 77,498 or 99.27 per cent, less than the quantity purchased in 1914-15. A water and grass famine in the tract was the chief cause of the decrease, but it is doubtful if the "Banjara" traffic will survive many years more.

Maunds 1,16,655, or maunds 1,09,332 more than in 1914-15, were cleared during the year under the ordinary railborne system from this source.

26. The total rainfall of the year amounted to 3.39 inches as compared with 16.88 inches during 1914.15, and was distributed over 14 days in falls varying from 2 cents to 1.38 inches.

There was light rain in June, August, September and October 1915. The heaviest rain fell in July 1915 when 1.63 inches were registered, the largest fall during that month being 1.38 inches. The months of April, May, November, December 1915, January, February and March 1916 were rainless. The average rainfall of the 35 years from 1881-82 to 1915-16 amounts to 11.96 inches.

146 working pits were selected for extraction, and of these 112 were completely emptied when the year closed. The total outturn was maunds 7,34,330, or an average of maunds 6,556 52 per pit. The quality of salt extracted was good. Of the 20 partal pits, sanctioned for extraction, none were extracted when the year closed, 26 partal pits out of 48, which remained unextracted last year, were emptied this year.

The minus closing balance at the end of the year amounted to maunds 1,31,895 as compared with a plus balance of maunds 71,304 last year. These figures are really nominal. Taking maunds 4,00,000 as the estimated outturn of the 54 pits that remained to be extracted when the year closed, the actual balance amounts to maunds 4,00,000 minus 1,31,895 or maunds 2,68,105 which, it is hoped, will be ample for the trade requirements until extraction of salt is resumed.

27. The salt taken over from the Kharwals, or pit owners, was paid for Payment of salt at rates varying in accordance with the quality.

as usual at rates varying in accordance with the quality of the salt. The bulk of the salt was paid for at the rate of Re. 0-1-3 a maund. An increase in rates was sanctioned during the year as the previous rates were not sufficient to encourage production.

28. The total cost of constructing new and renovating old pits amounts to Construction of new and renovation of old pits.

Rs. 92,346 8-10, of which Rs. 81,890-14-9 have been recovered from the pit owners and Rs. 148-15-0 have been written off as irrecoverable. The balance to be recovered is Rs. 10,306-11-1.

29. The Railway sidings were kept in order by the Jodhpur-Bikaner Railway sidings and rate of clearing of Through Railway at a cost of Rs. 677 as compared with Rs. 810 in 1914-15. The contractor was paid during the year at the rate of Rs. 1-10-0 per 100 maunds as last year for clearing Through Traffic Salt. From the commencement of the current year the work of clearing Through Traffic Salt has been placed under the direct control of the local officers.

30. Maunds 3,770 of free salt were distributed at the usual rate of 6 seers

Issue of free salt at the Luni.

per head to 25,136 persons residing in 39 villages in the Luni Tract. The decrease of 8,548 in the number of recipients and of maunds 1,283 in the quantity of salt issued was due to the migration of many people entitled to receive salt owing to drought.

31. The usual account of the Financial administration of the minor salt sources in Jodhpur. Salt Agreement of the 19th January 1879:—

32. In accordance with the Government of India Resolution of the 17th Sale price of Salt at the Rajputana Salt sources. January 1882, a sum of Rs. 60,469, ex- Appendix VII.

pended at Sambhar during the year, was added to the capital account in calculating the actual cost of the salt produced at the Rajputana Salt Sources. The total amount treated as capital expenditure against the price of Sambhar Salt to the close of the year was Rs. 17,82,074 comprising Rs. 12,86,482, the cost of construction and repairs of the "Kyars," Rs. 2,85,255, expended upon railway sidings, Rs. 50,759, upon quarters for the establishment connected with manufacture, Rs. 1,37,630, upon the purchase, repairs and setting up of pumps and engines and Rs. 21,948, the loss sustained upon a portable railway which was sold. The profit and loss on the transactions pertaining to each of the working Salt Sources have been worked out after inclusion into the accounts of leave and pensionary charges and elimination therefrom of through traffic receipts and charges. The amount of rent in Column 7 of Appendix VII shows the rateable share calculated on the sales at all the Salt Sources of a fixed sum of Rs. 3,00,000 a year plus, in the case of Sambhar only, Royalty actually paid during the period.

The accounts compiled on the above basis for the 34 years ending 1915-16 show a net profit of Rs. 1,20,61,415 and Rs. 6,131 on the sales of the Sambhar and Didwana salt, respectively, while the loss on the sales of salt at the Pachbadra salt source amounts to Rs. 7,89,324. There was a slight gain of Rs. 7,707 on the sales of salt effected at the closed salt sources. The profit on the Rajputana salt sources taken as one group amounts to Rs. 1,12,85,929.

With a view to showing the yearly transactions in respect of each of the Rajputana Salt Sources, the accounts of 1915-16 and of the four preceding years are shown separately in the statements following Appendix VII.

A total quantity of maunds 86,70,183 costing Rs. 11,96,904, or on an average Rs. 0-2-2.50 is estimated to have been produced during the year, and maunds 66,97,079 were sold at an average rate of Rs. 0-3-5.27 a maund.

The profit for the year was Rs. 2,42,579. The balance of salt in stock was increased by maunds 35,07,934.

33. Statistics similar to those pertaining to the Rajputana Salt Sources

The Pinjab Salt Sources.

Sale price of salt at the salt sources of the CisIndus and Kalabagh mines Division.

Appendix VII-A.

Sources in the Cis-Indus and Kalabagh mines Division, in Appendix VII-A and in the statements following it. The ac-

count commences from 1st April 1894, and in the transactions for the 22 years ending 31st March 1916 there was a loss of Rs. 3,80,055, or 1.16 pies a maund on the sales effected during the period, maunds 6,24,22,866, on which Rs. 37,73,266, were realized on account of price while the cost of excavation and storage amounted to Rs. 41,53,321.

The price, 1 anna and 6 pies a maund, of salt throughout the Cis-Indus and Kalabagh mines Division, remained unchanged. There was in the year under report a net profit of Rs. 38,190 as compared with a profit of Rs. 9,541 in 1914-15.

34. The sales during the year in the Cis-Indus and Kalabagh Mines Division, maunds 40,25,040, were less than the Sales, issues and distribution of salt. sales of 1914-15 by maunds 2,04,543, or Appendices II and VI. 4.84 per cent. The decrease in sales is due to the dislocation of business caused by the enhancement of duty. The sales, however, in both years were much above the average owing in each case to the expected enhancement of duty, and also to the increased demand for rock salt in the United Provinces of Agra and Oudh, Bihar and elsewhere consequent on the shortage of imported salt. The issues, maunds 39,81,289, were more by maunds 18,464, or 0.46 per cent than those of the previous year. The decrease in sales occurred at all the depôts. At Khewra the sales decreased by maunds 1,91,846 or 5.09 per cent, and at Warcha, Nurpur and Kalabagh by maunds 174, 146 and 12, 377, or 0.12, 3.12 and 3.88 per cent, respectively. The sales of the Khewra depôt were 88.78 per cent of the total sales of the whole Division as compared with 89.01 per

ecent in 1914-15. The uncleared balance of maunds 3,90,192 was higher by maunds 43,750 than that of the previous year. The work connected with the Through Traffic clearances continued to be carried out departmentally instead of through a contractor. The average cost of carriage of salt from the mine to the depôt was Re. 0-12-0-99 per 100 maunds as compared with Re. 0-12-4-41 in 1914-15 and the average cost of clearance of Through Traffic salt per 100 maunds was Rs. 1-6-3-18 as compared with Rs. 1-7-8 in 1914-15 and Rs. 1-6-6 in 1913-14. The uncleared balance of Through Traffic salt on 31st March 1916 was maunds 3,57,351 as compared with maunds 3,32,856 in the preceding year.

Maunds 1,03,222 or maunds 5,252 more than in 1914-15, were consigned to places in the Jammu and Kashmir State and maunds 20,950, or maunds 2,188 more than in the previous year, were consigned to Delhi. There was a decrease of maunds 4,40,528 and 42,094, respectively, in the quantity of salt consigned to the Punjab, including Feudatory States and the North-West Frontier Province, the result of the abnormal sales of the previous year. The United Provinces of Agra and Oudh, the Provinces of Bihar and Orissa, Bengal, Central Provinces and Berar, British Baluchistan and Bombay received maunds 1,11,416, 3,56,147, 20,629, 2,212, 1,630 and 1,384 more, respectively, for the reason explained above, while Rajputana and Sind received maunds 295 and 5,001 less, respectively, than in 1914-15.

35. The quantity of salt excavated in the Division, maunds 40,35,890, was

Excavation of salt.

Appendix V.

than in 1914-15. The balance in stock at the close of the year amounted to maunds 4,92,455 at Khewra, maunds 18,606 at Warcha and maunds 21,009 at Kalabagh. The average outturn per 100 cabic feet at the Mayo Mine decreased from maunds 138 in 1914-15 to maunds 137 during the year under report. The cost per 100 maunds was Rs. 6-5-4-62 as compared with Rs. 6-2-11-11 in the preceding year. The increase of Re. 0-2-5-51 per 100 maunds is due to the payment, throughout the year, of higher rates for excavation to the miners sanctioned by the Government of India in Commerce and Industry Department letter No. 10889-70, dated 6th October 1914 which last year were paid from the 1st November 1914 only.

36. Of a total of 26,13,644 cubic feet of salt excavated in the Mayo Mine,

23,82,897 cubic feet were obtained from chambers, 57,839 cubic feet from drifts and 1,72,908 cubic feet from the Low Level Tunnel. A total length of 2,584 feet of tunnels, costing Rs. 3,499 were driven during the year. Waste salt was thrown in 10 working blocks of the

driven during the year. Waste salt was thrown in 10 working blocks of the Pharwala, Sujowal and Buggy seams. The other annually recurring charges connected with the mine, such as railing off dangerous places, repairing existing tunnels and constructing drains on the surface of the mine hill, amounted to Rs. 3,102.

The tramway line and rolling stock were kept in good order at a cost of Rs. 5,490. Ten new platform trucks were made locally; 52 axles, 13 sets of wheels with axles and 20 wheels were purchased. The total cost on above including Rs. 1,132 on account of freight on 50 tipping wagons obtained through the Secretary of State for India amounted to Rs. 6,994.

37. During the year the low level tunnel sanctioned by the Government Low level tunnel in the Mayo Mine.

of India in the Department of Commerce and Industry in letter No. 35-33, dated the 4th January 1911, progressed 281 rft. at a cost of Rs. 11,136 9-1. As the work done this year has been entirely in salt, the expenditure on the tunnel was charged against the grant for excavation of salt. The total length driven from the 8th April 1911 to 31st March 1916 was 3,703 rft. and the total sum expended, including cost of machinery purchased, amounted to Rs. 50,909-the carriage of salt from the tunnel to the depot is now under consideration.

- 38. An expenditure of Rs. 1,260 was incurred during the year in connect Expenditure connected with plague at Khewra and the other salt mines of the Division. the mines were free from the epidemic.
- 39. No special expenditure was incurred in respect of the Nurpur mine during the year. The exploration tunnel in the Warcha hill was extended by 48 running feet at a cost of Rs. 223-4-0 bringing the total length to 750 running feet and the total expenditure to Rs. 2,602-0-5.
- 40. Exploration work in connection with potash salts in the Nurpur Investigation of the Potash salt deposits mine was continued during the year. A at Nurpur.

 deposit, which is 13 feet thick at a distance of 90 feet from the point at which it was first met, has been found. It is impossible at present to say whether the deposit exists in sufficient quantity or richness to attract the capital expenditure necessary for its scientific treatment but a detailed examination of the locality is now being carried out by the Geological Survey Department with a view to obtaining definite knowledge of the value of the deposit. Meanwhile samples have been supplied to various firms for experimental purposes, and the results have so far been satisfactory. The departmental expenditure on this work of exploration during the year was Rs. 944-13-5 and the total expenditure up to the end of the year amounted to Rs. 1,065-14-2.
- 41. There were 46 minor and 6 serious accidents in the Mayo Mine where the average number of persons employed daily above and below ground during the calendar year 1915 amounted to 804, of which 437 were men, 332 women and 35 children under 12 years of age. One minor accident occurred at the Warcha mine. No accidents occurred at the Nurpur mine or at the Kalabagh quarries.
- 42. The sales from the Mandi Mines, maunds 1,03,771, were more by maunds 26,716, or 34.67 per cent, than sales and distribution of salt. the sales of the previous year. There was an increase of maunds 25,527 and 1,188, or 396.94 and 1.68 per cent both at Guma and Drang Mines, respectively. The clearances to the British Districts of Kangra and Simla amounted to maunds 50,754 and 345, respectively.
- 43. The supply of salt was ample for the demand at the Guma and the Drang mines. The balance of salt in stock at the close of the year was maunds 14,800 at Drang as compared with maunds 300 in the previous year and maunds 9,535 at Guma against nil last year. As stated in paragraph 44 of the last year's report an officer of the Department was deputed in May 1915 to inspect the mines and advise regarding the introduction of an improved system of working. A report on the subject was forwarded to the Commissioner of the Jullundur Division for communication to the Darbar. Many of the recommendations made have been adopted and others are under consideration. The State Authorities have now assumed direct management of the Mine and the working has much improved in consequence.
- 44. The sales of Sultanpuri salt, maunds 37,854, increased by maunds Sultanpur Salt Works.

 Sales, issues and distribution of salt.

 Appendices II and VI.

 end of the year. Maunds 36,224, out of the total quantity of salt cleared, maunds 37,754, were removed by rail and the balance, maunds 1,530, by road, maunds 27,874 being consigned to the United Provinces of Agra and Oudh, maunds 4,716 to the Province of Delhi and maunds 3,884 to the Province of Bihar and Orissa. The bulk of the salt declared for the United Provinces of Agra and Oudh was destined for Cawapur, Meerut, Dehra Dun, Pilibhit, Haldwani and Muzaffarnagar which received maunds 5,245, 1,062, 1,000, 13,865, 2,165 and 1,905, respectively.

45. The year opened with a stock balance of maunds 893, maunds 39,517

Manufacture and stock.
Appendix V.

were manufactured and maunds 37,854

were sold, leaving a stock balance of
maunds 2,356 after deducting a deficit of maunds 200 at the close of the year.

Sixteen factories were licensed during the year.

The price at which salt was sold by the manufacturers at the Sultanpur Salt Works ranged from Re. 0-4-0 to Re. 0-9-0 a maund and the average price was Re. 0-6-6 a maund. Last year the price ranged from Re. 0-4-0 to Re. 0-6-0 a maund and the average price was 5 annas a maund.

46. The realizations on account of Hakimi Cess at the sanctioned rate of 3 pies a maund amounted to Rs. 591.

The Government of India in a letter from the Department of Commerce and Industry to the address of the Punjab Government, No. 16920-89 Salt, dated the 26th November 1915, have sanctioned the continuance of the levy of this cess at a uniform rate of 3 pies a maund for a further period of 10 years with effect from 1st January 1916.

North West Frontier Province
Kohat Mines Division.
Sales, issues and distribution of salt.
Appendices II and VI.

and 369, respectively. Maunds 4,98,521 were declared for places in British envitory, being a decrease of maunds 70,078, as compared with the previous

and 369, respectively. Maunds 4,98,521 were declared for places in British territory, being a decrease of maunds 70,078 as compared with the previous year. The exports to Kohat, Bannu, Peshawar, Derajat and Kurram decreased by maunds 41,003, 3,622, 526, 14,406, and 20,079. No salt was exported to Nowshera during the year under report against maunds 800 in 1914-15.

The decrease in sales was due to the abnormal sales in the previous year and to the restriction of issues under Ordinance II of 1916.

- 48. No accidents occurred at the quarries in the Division during the year.
- 49. Maunds 2,49,879 of Kohat salt were carried by railway into the Pesha-Trade facilities and administrative improvements. war valley, or maunds 76,190 less than in 1914-15.

The sales, maunds 3,46,184, and the issues, maunds 3,41,621, at the Jatta Depôt were less by maunds 41,130 and 43,902, or 10.62 and 11.39 per cent, respectively, than in 1914-15. Of the total quantity of salt issued, maunds 3,32,236 were removed on carts, a decrease of maunds 37,596 on the quantity so removed in 1914-15.

The issues, maunds 1,25,953, at the Bahadur Khel Depôt were also less by maunds 14,898, or 10.58 per cent, than in 1914-15. The quantity removed on carts maunds 60,714 shows an increase of maunds 2,923 over those of the previous year. The sales at Karak and Malgin were less by maunds 9,115 and 6,949 respectively than those of the previous year.

Encounters with raiders.

50. No guard posts were raided during the year under report.

51. The Through Traffic sales, maunds 23,03,956 of Sambhar salt during Through Traffic.

Extent of trade and number of traders dealing direct with the Department.

Appendices VIII and IX.

of the Division, as compared with 43:10 per cent, in 1913-14. The Through Traffic sales of Pachbadra salt, maunds 8,61,663, which comprised 88:07 per cent of the railborne trade of the Division, were more than those of 1914-15 by maunds 4,161, or 0:48 per cent. The Through Traffic sales, maunds 35,34,923, of Khewra salt, fell off by maunds 1,97,037, or 5:28 per cent, and formed 94:04 per cent of the total rail-borne

trade of the Division, as compared with 94.43 per cent in 1914-15. The total Through Traffic sales, maunds 67,00,542, represented 68.81 per cent of the total rail-borne trade of the three sources which issue salt under the system, as compared with 66.28 per cent in 1914-15.

The number of traders in Sambhar salt who dealt with the Department fell off from 1,543 to 1,334 while the number of marts from which applications were received for this salt rose from 149 to 152. The number of direct dealers in Pachbadra salt and the number of marts rose from 732 and 117 to 960 and 122. During the year the number of direct dealers with Khewra salt decreased from 2,892 to 2,628 and of marts from 442 to 428.

Payment of revenue on account of Through Traffic salt to the amount of Rs. Payment of revenue on account of Through 97,37,163 was paid during the year. Rs. Railway Stations.

Railway Stations.

Railway Stations.

Railway. Rs. 10,21,022 on account of Pachbadra salt, were collected at 31 treasuries, 15 post offices and 5 stations on the Great Indian Peninsula Railway and Rs. 56,77,174 on account of Cis-Indus and Kalabagh Mines rock salt, were paid into 85 treasuries including 5 in the Jammu and Kashmir State and 26 post offices during the year. The total revenue paid into treasuries amounted to Rs. 79,73,373, into post offices to Rs. 15,38,762 and into stations on the Great Indian Peninsula Railway to Rs. 2,25,028. The payments made into treasuries and post offices exceeded those of 1914-15 by Rs. 9,31,124 and Rs. 2,73,325, respectively, while payments made into the stations on the Great Indian Peninsula Railway decreased by Rs. 91,269.

53. The usual account of through traffic receipts and charges is given

Through Traffic.

Receipts and charges.

below:—

•			The state of the	Aller Shirt	CHARGES.	Red had
	-1		Receipts.	Fixed.	Contingent.	Total.
			Rs.	Rs.	Rs.	Rs.
Cis-Indus			55,239	9,286	44,976	54,262
Sambhar	***		36,047	3,124	20,160	23,284
Pachbadra	•••		13,472	2,918	11,323	14,241
	Total		1,04,758	15,328	76,459	91,787

There was a profit of Rs. 12,971 on the year's transaction. Three pies a maund are realized from traders for clearing through traffic salt and the average cost per maund was 2.95 pies at Khewra, 1.94 pies at Sambhar and 3.17 pies at Pachbadra. On the whole the average cost was 2.63 pies per maund. Both at Sambhar and Pachbadra the work of clearing through traffic salt has from the commencement of the current year been placed under the direct control of the local officers.

54. The accounts shown in the preceding paragraph do not include the Loss or gain on Through Traffic transactions. interest on capital expenditure incurred in connection with, and the leave and pensionary charges on account of the establishment employed on through traffic work in the Sambhar, Pachbadra and the Cis-Indus and Kalabagh Mines Division. An account including these as also the cost of service stamps is exhibited at the foot of Appendices VII and VII-A, and in the statements

following them. In the Rajputana Divisions there was a loss of Rs. 6,268 on the transactions for the 34 years ending 31st March 1916, while in the Cis-Indus and Kalabagh Mines Division the gain during the 22 years ending 31st March 1916 amounts to Rs. 2,91,465.

55. In paragraph 58 of last year's report it was stated that certain important concessions had been sanctioned by Changes in the system of issuing licenses. the Government of India with a view to stimulating the production of saltpetre. These concessions were the outcome of recommendations made by the Local Government the United Provinces of Agra and Oudh for the encouragement of local industries and were also occasioned by the greatly increased demand both in Great Britain and the allied countries and America for saltpetre for munition purposes consequent on the outbreak of war.

Potash salts being no longer obtainable from the Stassfurt Mines of Germany, India became the chief market for saltpetre and it was in every way imperative to encourage the revival of what was a decaying industry, even at the risk of some loss to salt revenue. The more important of the concessions granted were as follows:—

- (a) A reduction in the fees for licenses for the manufacture of crude saltpetre;
- (b) the abolition of the system of proscribing areas within which manufacture was not allowed, and
- (c) the issue of licenses through the Agency of Post Offices.

Similar concessions were also granted in the case of the issue of licenses for the manufacture of rassi and sajji (carbonate of soda) and khari (sulphate of soda). The concessions had an excellent effect on production, the issue of licenses through the Postal Agency being a most popular innovation. The abolition of the system of proscribed areas affected mainly the United Provinces of Agra and Oudh and was a much needed measure as it helped to break down the monopoly enjoyed by the zamindars of non-proscribed villages whose exorbitant demands for puttas or leases to work the nitrous soil of the village had of recent years seriously affected the saltpetre industry.

As it was, owing to the great demand for saltpetre and the high prices that prevailed the profits of the zamindars were in no way diminished and were in many cases enhanced. In the Punjab the payments received by the zamindars were startling, notwithstanding that many fresh areas were tapped. In some villages the consideration that passed ran into thousands of rupees. I am much indebted to District Officers both in the United Provinces and the Punjab for the assistance given by them in settling the many disputes that arose over the grant of leases and the terms thereof.

56. The revenue, Rs. 1,35,106, realized in the Internal Branch, was more by Rs. 13,030 or 10:67 per cent, then in 1014

Receipts and charges.
Appendices I, II, X and XI.

Rs. 13,030, or 10.67 per cent. than in 1914-15. Mds. 90,476 of purified salt and mds. 4,933 of Sitta (impure salt) were excised during the year, compared with mds.

72,437 and 5,300 in 1914-15. The receipts from license fees, Rs. 38,362, were less than those of 1914-15 by Rs. 14,061. This decrease is due mainly to the reduction in the license fees above referred to in the previous paragraph.

Excluding refunds, the revenue realized was less than the expenditure, by Rs. 15,362. The fixed charges, Rs. 1,11,201, and the contingent charges, Rs. 39,267, were more by Rs. 8,338 and Rs. 3,768, respectively, than those of 1914-15. There was an increase in contingent charges under all the heads with the exception of "Hot weather charges," "Stationery" and "Petty construction and repairs" where there was a slight decrease.

57. 51,805 licenses to manufacture saline substances were issued during

Licenses issued. the year showing an increase of 4,110 over

Appendix X. 1914-15. This increase was undoubtedly

the result of the grant of the concessions referred to in paragraph 55 combined

with the high prices that prevailed during the year.

58. 345 licensed refineries, or 23 more than in 1914-15, were worked.

Operations in refineries and trade of Calcutta in Saltpetre.

Appendix XI.

The quantity of crude saltpetre refined, mds. 13,33,524, and the quantity of refined saltpetre produced, mds. 6,08,524, were more by mds. 3,38,190

and 91,839, respectively, than in 1914-15. The percentage of refined saltpetre produced and of salt educed was 45.63 and 25.44, respectively, as compared with 51.91 and 37.93 in the preceding year. The decrease in these percentages is being enquired into. Mds. 17,257 of impure salt were destroyed by the refiners as unsaleable. No refinery was worked in the North-West Frontier Province as compared with one refinery worked last year, but there was an increase of 4, 12 and 8 in the number of refineries worked in the Punjab, United Provinces of Agra and Oudh and Bihar, respectively. There was an increase of maunds 46,125 and 48,272 in the quantity of refined saltpetre produced in the Punjab and United Provinces of Agra and Oudh, respectively, and a decrease of maunds 2,558 in the quantity of saltpetre produced in Bihar.

The quantity of saltpetre imported into Calcutta, maunds 5,54,479, was more by maunds 66,096. Of the quantity imported, maunds 2,82,114 were from Bihar and Orissa, maunds 2,00,149 from the United Provinces of Agra and Oudh, maunds 71,299 from the Punjab, maunds 45 from Bengal and maunds 872 from Rajputana and Central India. The quantity exported from Calcutta by sea was maunds 4,92,887, or maunds 55,869 more than in 1914-15.

59. The North-West Soap Company at Meerut, Messrs. D. Waldie and Refund of duty on salt used for Industrial Company, Cawnpur, Hafiz Mohammad Halim Mohammad Siddiq of Lucknow, Mr. Enrico N. Stein of Cawnpur and Delhi, Stein Forbes and Company, Burk Brothers, the Elgin Mills, Cawnpur, Mr. Ad. Meyer of Agra and the Empress Mills, Nagpur, held concessions of the right to use salt free of duty for industrial purposes. The fee of Rs. 100 which is payable annually by each of the firms named, except the North-West Soap Company, to cover the cost of supervision and incidental expenditure, was duly realised.

Rebates of duty amounting to Rs. 31,063 in all were paid to the above firms.

60. Maunds 34,424 of Tibetan salt, or maunds 632 more than in 1914-15, were imported into the districts of Kumaon and Garhwal in the United Provinces of Agra and Oudh. The quantity of salt exported to Nepal, maunds 1,02,070, was less by maunds 5,197 than in 1914-15.

61. Accurate statistics of consumption are not available owing to absence Supply of salt to Provinces with which the Department has dealings.

Appendix XIII.

been calculated on the aggregate figures of 3 years. The following table summarising the figures given in Appendix XIII gives, per head of population for the several provinces with which the Department has dealings, the balance between the supplies to, and exports from, each province:—

		AVERAGE SUPPLY PER HEAD OF POPULATION DURING										
	1910-11.	1911-12.	1912-13.	Average.	1913-14.	1914-15.	1915-16.	Average.				
North-West Frontier Province	6.40	9.09	7.36	.7.62	9-20	16.88	15.21	13.76				
Punjab	8.74	9.42	9.16	9.11	8.90	9.32	8.74	8.99				
Kashmir	9 21	10.54	9.01	9.59	14-97	11.18	9.71	11.95				
United Provinces of Agra and Oudh.	9.41	9.53	9.94	9-62	9.47	10.5	9.42	9.81				
Bihar and Orissa	11.95	12:48	11.04	11.82	12.02	12:33	11.60	11.98				
Central Provinces and Berar	12'14	13.88	11.98	12.67	12.71	12.80	13.02	- 12.84				
Rajputana and Central India	9.85	9.79	9.92	9.85	11.16	9.84	7.80	9.60				

62. 409 cases of offences against the Salt Act occurred during the year, in Prosecutions and punishments. Which 458 persons were implicated, an increase of 117 in the number of cases and of 111 in the number of persons than those of the previous year. 232 persons were prosecuted and 226 were released departmentally. Of the number prosecuted 34 were under trial when the year closed. 185, or 95.36 per cent., of those tried, were convicted, as compared with 100.00 per cent., in 1914-15.

Of the persons convicted 16 were sentenced to imprisonment, with or

without fine, and 169 were fined only.

63. Only one case occurred in the Sambhar Lake Division. No cases

Cases at the Rajputana Salt Sources and occurred at the Luni, Pachbadra or the Sultanpur Salt Works.

Sultanpur Salt Works.

- 64. Four cases, involving 8 persons, occurred in the Cis-Indus and Kala
 Cases in the Cis-Indus and Kalabagh Mines bagh Mines Division during the year under report.
 - 65. Seven cases, involving 7 persons, occurred in the Kohat Mines Division. Sion against 12 cases and 18 persons in the previous year.
 - 66. No case occurred at the Mandi Mines during the year under cases at the Mandi Mines. report.
- 67. In the Internal Branch there were 397 cases involving 442 persons, maunds 70-30-4 of salt, pure and impure, and maunds 40-19-6 of other saline substances were seized, 308 persons were detected manufacturing salt illicitly on crude saltpetre, Khari and Rassi factories, 9 licensees were found to have manufactured substances other than those for which their factories were licensed and 41 persons were found to be working unlicensed factories. Of the 442 persons the Department took no penal action against 218. 224 persons were committed for trial of whom 177 were convicted and the cases of 34 were pending at the close of the year. Of the maunds 70-30-4 of salt seized, maunds 45-35-10 were smuggled from saltpetre refineries. 71 persons were arrested for manufacturing salt illicitly from saline earth in the Rajanpur (Dera Ghazi Khan) Circle and 1 in the Lower Division, Internal Branch.

The files of all cases were submitted to me for inspection and in no case was any unnecessary or harassing prosecution resorted to.

68. A peon of the Cis-Indus and Kalabagh Mines Division was convicted Criminal offences committed by members of in a theft case and fined Rs. 15. He was dismissed the service.

Another peon of the Kohat Mines Division, while on leave, was implicated in a criminal case and sentenced to 9 months' imprisonment.

- 69. I held charge of the Department and Mr. P. C. Scott O'Connor held charge of the Department. charge of the office of Deputy Commissioner throughout the year.
- 70. The duties of the officers of the Department were unusually onerous during the year, and all officers worked loyally and well.

The following deserve special mention-

Assistant Commissioners :-

Mr. C. H. Jeffery Orchard, Mr. F. D. Reid and Mr. Lakhmir Singh.

Superintendents:-

Mr. E. G. Winn, Mr. E. D. Wilson, Mr. P. T. Watling and Pandit Sri Kishan Munshi, Rai Sahib.

AGRA:

The 15th September, 1916.

J. F. CONNOLLY,

Northern India Salt Revenue.
