1944-45 1

**THE DAVID SASSOON INDUSTRIAL SCHOOL, MAHIM, BOMBAY.**

**ANNUAL REPORT FOR THE YEAR 1944-45.**

*Strength.*—There were 401 boys on roll on 1st April 1944. During the year 147 boys were admitted in the school. In all 146 boys left the school, out of which 92 were released on license, 26 were discharged after completion of full period, 5 were released unconditionally, 3 were transferred to other certified schools and 20 absconded from the school and outside Hospital. The number of abscondings shows an increase this year as against 13 boys who absconded during 1943-44. Table 1 at the end gives the particular of admissions and discharges.

There was a great demand for vacancies from all over the Province and particularly from the Remand Home, Umarkhadi and as such the strength of the School was more than 400.

*Education.*—The boys continued to receive instructions in Marathi, Gujarathi and Urdu up to the 4th Standard. In all 15 boys completed the 4th Standard Examination from all the three schools. This year 13 boys appeared for the Government Elementary Drawing Examination. Out of which 9 passed and 2 boys appeared for the Intermediate Drawing Examination and both of them passed the examination. The system of conducting the Annual Examination of the boys from outside Examiners was continued and still the results of the School were very good.

In order to encourage the boys in reading Newspapers and Magazines special Library Classes are started under the guidance of different teachers and the boys showed a keen interest in the Library Classes. Special attention is paid to increase the General knowledge of the boys and many interesting talks were given to the boys by Mr. M. N. Limaye, the Superintendent of the School. Dr. D. D. Mehta, the Secretary of the Society, delivered very useful lectures to the Members of the School on Psychology and its application in teaching the boys of the school.

Mr. Gaikwar continued to take Hindi Classes for the benefit of the up-country boys.

Throughout the year Mrs. Lilavati Munshi, the Chairman of the School, donated many useful books, Newspapers and Magazine Table 2 at the end gives the particulars of the boys receiving education in different primary classes.

*Grants.*—The School's Committee of the Municipal Corporation of Bombay gave a grant of Rs. 500 as in previous years and a grant of Rs. 178 was received from the Inspector, Drawing and Crafts Work, Bombay.

*Workshops.*—The School Oil Engine was found to be insufficient to supply adequate power to the Workshops and as the Government were kind enough to grant Essential Certificate for Electrical Installation it was decided to sell the oil engine and was sold for Rs. 4,000. Two 10 H.P. Electric Motors were purchased and installed in the School Workshops in order to increase the power for running of the Workshop. It was possible to purchase 4 new Looms from the grants received from the Government under Re-organisation Scheme and Messrs. Kirloskar Brothers through the efforts of Mr. L. V. Sathe, the Chairman of the Experts Committee, were enough to supply them. All the new 4 looms have been installed. The

addition of the new looms will increase the production of the cloth of the School and it is proposed to produce cloth of different varieties besides the cloth required for the school. The new looms have afforded a great facility for training more boys in Weaving.

A Power Blower has been purchased and will shortly be installed for the Smithy Workshop and thus the number of ovens will be increased to 6 in addition to the 3 which were working on hand-bellows. It was essential to install the power blower as the orders of the Smithy workshops have been increased to be very great extent.

The Experts' Committee met twice and amongst other things discussed the important subject of providing adequate facilities for the training of the boys.

Such a training will be very useful to the boys to become good workmen and is also bound to entail some expenditure on raw materials for the training of the boys. There is also a likelihood of some wastage at the hands of the beginners and as such a definite scheme has been placed before the Government, to provide adequate funds for the systematic training of the boys. The Government sanction is awaited. The Experts' Committee met twice during the year which consisted of the following members:—

Mr. L. V. Sathe, Chairman, Mr. P. R. Bhatt, Professor B. B. Pradhan, Mr. Sengupta and Mr. C. E. Krishnamurti, Dr. D. D. Mehta, the Secretary and Mr. M. N. Limaye, Superintendent, were present at both meetings.

It has been possible to systematise the training of the boys in different Crafts but it has not yet achieved the desirable level due to the adequate raw material required for such training. Mr. T. D. Bhadsavle took Theory Classes for some time but the desired result has not yet been achieved. Boys are trained and prepared to appear for the Government Examination in Carpentry and Tailor. The Board of Technical Education is approached to recognise the course of the School in Smithy, Fitter and Turning. It is decided to follow the syllabus of the Board and thus to send the boys for Examination in Smithy, Fitter and Turning.

All the workshops were busy throughout the year and in order to cope with the outside orders most of the workshops worked for 8 to 9 hours per day. Our thanks are due to all the Government Departments, Elphinstone College, Messrs. Bedekar & Sons, Bombay Hosiery Works, Bombay High Court, B. B. & C. I. Railway Grain Shops, Children's Home, Chembur, Remand Home, Umarkhady, Mr. Pai of the Hindustan Works Kapur & Co., and many other patrons for placing orders with the School and thus providing facilities for the training of the boys.

The credit of procuring these orders goes to the Superintendent and Workshop Superintendent and of executing them goes to all the Workshop Mistries.

The practice of sending boys for the Board of Technical Examination was continued this year and 8 boys were sent for Carpentry Examination out of which 4 passed. For the Tailor Examination 7 boys were sent out of which 7 passed i.e., the result was 100 per cent. In March 1945 7 boys are sent for first year Carpentry Examination and 2 for the second year. For Tailor 11 are sent for first year and 2 for second year. The result is not yet received.

The total annual turnover for the year 1944-45 was Rs. 26,437-0-3 as against Rs. 15,337-13-0 in the year 1943-44. Raw materials worth Rs. 14,073 was purchased and the total profits were Rs. 9,771-15-11 as against Rs. 5,239-4-7. This shows an increase of Rs. 4,532-11-4 over the last year.

In order to acquaint the boys with the working of the outside Mills and Workshops visits were arranged to Finlay Mills, Messrs. Kamdar Ltd., Mukund Iron and Steel Works, Messrs. Bhow Kashinath & Co., and MacKenzies Limited.

*Gardening.*—Newly admitted boys are drafted to the gardening work in order that they may get acclimatised to the School. Vegetables worth Rs. 1,731-2-3 were produced during the year and expenditure of Rs. 311-13-0 was made for the purchase of seeds, manure, etc. The crop of cocoanuts was sold for Rs. 190 and the Tad-golas for Rs. 25. Thus the total Garden earning during the year was Rs. 1,946-2-3 as against Rs. 2,717-8-3 for the year 1943-44. The decrease is due to the failure of one crop due to the cold.

*Employment of boys.*—It is a pleasure to report that the Superintendent's efforts to employ Fakruddin and Jaswant Chabildas as substitute peons was very successful and Fakruddin has been employed as a permanent peon on the School staff after his discharge from the School. Jaswant Chabildas another inmate of the School was employed as a substitute in the leave vacancy of the cook and he discharged his duties very satisfactorily. He was also employed in the leave vacancies of peons.

*Health and Sanitation.*—The Medical Officer of the Children's Aid Society visits the School for on week days and examines all the newly admitted boys. Total number of indoor patients treated during the year was 1,588. As arrangements have been made to treat the staff members as outdoor patients the number of such cases treated was 38.

There was no epidemic and the cases treated were for Malaria and other fevers. The general health of the boys was good.

*Recreation and Games and Physical Training.*—It is very essential that the boys of the Certified Schools who are all residential, and, who have to take up jobs and hard ones at that must be physically fit. A great attention is paid in the School for the Physical Training of the boys and games. The standard of the physical training of the School is very high and performance given by the boys to the visitors were very highly spoken of. A system of training platoon leaders in taking physical training was introduced this year and has proved a great success. Mr. M. N. Limaye, the Superintendent of the School, and Mr. Gaikwar have designed some rhythmic exercises on the band, and the boys like them immensely. A batch of about 75 boys of the School was sent under the supervision of the Superintendent and Mr. Gaikwar to take part in the Annual Day of the Harijan Sevak Sangh arranged by the Chairman of the Sangh, Mrs. Lilavati Munshi, under the Chairmanship of His Worship the Mayor, Mr. Nagindas T. Master, at Gowalia Tank. His Worship the Mayor and the spectator were very highly pleased at the demonstration given by the boys of the School. His Worship the Mayor spoke very highly about the demonstration given by the boys in his presidential address.

All the boys of the School receive physical training every day in the morning and play games in the evening. All the year round matches were arranged with the outside teams and the school team has shown its mettle in all of them. The School foot-ball team has entered in Western India Foot-ball Tournament for the Schools and also the Fourth Division League. The School eleven stood 3rd, in both the tournaments.

The result of the various matches played by the School are given below :—

Matches.	Played.	Won.	Lost.	Drawn.
Cricket ... ..	20	16	2	2
Foot-ball ... ..	34	25	4	5
Volly-ball ... ..	4	3	1	...

Master Nyasgul scored 100 not out against a well-known outside team.

The major and very important problem of the residential schools like this is the adequate arrangement for recreation of the inmates to spend their leisure time. Many interesting programmes such as dramas, concerts, camp fires and picnics were arranged for the boys. The boys of the School took part in a musical concert at Andheri and were awarded one Silver Cup. The School band is organised and the Commissioner of Police, Mr. Butler was kind enough to depute a band instructor from the Police band, who was very helpful in teaching the boys bag-pipe band. The School band received many invitations from the public to play at marriage and other ceremonies and was sent out on many occasions.

Boxing is making a very satisfactory progress under the able Instructor, Mr. Pardiwalla, and many boys took part in the boxing tournaments arranged by Navy and the Western India Amateur Boxing Federation tournament. During the year the boys of the School won 5 silver medals, 2 silver cups and 4 bronze medals and 8 prize certificates. One of the boys Manilal Purshottam distinguished himself in the tournament arranged by the Navy and was highly spoken in *The Times of India*.

The Municipal Propaganda Officer, Mr. Khan, demonstrated three interesting movie films to the boys of the School.

It will not be out of place to give the remarks of Mr. Purshottamdas Tandon, Speaker of the U. P. Legislative Assembly.

I have just been round the grounds of the institution and seen a part of Tailoring Class work. Unfortunately, I have come at an hour when the classes have ceased to work. But I have seen their outdoor games. They are bright and smart and appear to be well looked after. One naturally wished that he had institutions of this kind all over the country.

The Munshi Troop and Bunbury Troop are very systematically trained by Mr. A. O. Mehta and Mr. R. S. Pathan. Both the troops have distinguished themselves in outside Scout Rallies.

*License and After-Care.*—The License Sub-Committee met and considered the cases of 152 boys out of which 92 were released on license during the year. Many destitute boys who have no homes to go to are accommodated in the Government After-Care Hostel at Bombay and After-Care Hostels at Poona, Ahmedabad, Hubli and other places. The Cawnpore After-Care Association has proved very helpful in cases of the Northern India boys in accommodating them in their Hostel and finding employment for them and supervising them.

*Staff.*—Mr. M. N. Limaye, the Superintendent of this School was transferred to Children Home, Chembur, from the 5th September 1944 and Mr. M. C. Pradhan, the Superintendent of the Chembur Home, was transferred to this School. During this period Mr. Pradhan went on leave and afterwards tendered his resignation and as such Dr. Mehta has to work as Superintendent of the School in addition to his own duties as the Secretary of the Children's Aid Society. It was no doubt a great burden on him but it is a pleasure to note that he discharged the duties of the Superintendent in a very efficient manner. Mr. M. N. Limaye took over the charge of the School from the 15th March 1945.

*General.*—The long felt want of a dining shed for the inmates of the boys was remedied in this year and the Government was kind enough to sanction Rs. 18,000 for the construction of a dining shed in the School. It is a pleasure to note that the

Superintendent Mr. M. N. Limaye secured the carpentry and labour work of the Dining Hall and most of the work was done by the boys themselves. The School has now a first class dining hall with a raised platform and is very useful for the dramatics and other functions of the School in addition to dining of the boys.

*Visitors.*—The School was visited by many distinguished persons during the year and expressed their great satisfaction on the up-to-date working of the School. The names of some of the visitors are given below:—

Mr. Drewe, the Secretary, Home Department, Mr. Purshotamdas Tandon, Speaker, U. P. Legislative Assembly, Mr. Nagindas Master, Mayor of Bombay, Mr. Hansraj Gokuldas and Mr. Bodhrani, Assistant Educational Inspector. The monthly visiting members of the Managing Committee of the School visited the School regularly and made very useful suggestions for the improvement.

In the end we have to thank Mr. L. V. Sathe, the Chairman of the Experts Committee, Mr. Sengupta of the V. J. T. I., Mr. P. R. Bhatt, Honorary Secretary, Mr. Motichand G. Shah, the Honorary Treasurer, for taking keen interest in the development of the School workshop and giving their valuable advice. No institute can prosper without the active co-operation of the members of the staff and we take this opportunity to thank all the members of the David Sassoon Industrial School staff for their keen and enthusiastic interest in their work.
