Annual report on the working of the Municipalities and Notified Area Committees in the North-West Frontier Province for the year 1951-52.

During the year under report there were 9 Municipal and 9 Notified Area Committees functioning in the North-West Frontier Province. Since the Committees have been suspended, administration is being carried out by Administrators except in Notified Area Committees, Hangu, Thall and Gallis. In the former two each committee consists of the Assistant Commissioner, Hangu, as President and two nominated members. In the case of Gallis, the Deputy Commissioner, Hazara, acts as President and some other officials of the Provincial Government are appointed as members when the Provincial Government is in Nathiagali for the summer.

The Administrators are either officials, *e. g.* Assistant Commissioner, Tank, who also acts as Administrator for Notified Area Committee, Tank or public men specially appointed to these posts. In some cases there are Joint or Assistant Administrators also *e. g.* Municipal Committee, Haripur, depending upon the functions and the volume of work of the committee concerned. The work of the Committees has generally been satisfactory.

#### Accounts.—

Accounts of the Committees are audited annually by audit parties deputed by the Comptroller, North-West Frontier Province. The Provincial Government through the Local Government Department exercises control over the expenditure and account of all committees.

#### Contributions.—

Previously Government used to give grants to the Municipalities and Notified Area Committees for Education, Medical but now these branches have been provincialized and no Government grant is given and on the contrary contributions for the maintenance of these institutions are paid by local bodies at the following ratio:—

Local Body	Medical	Education
Municipalities ..	Running cost ..	10 per cent. of actual income.
Notified Area Committees ..	Ditto.	5 per cent. of actual income.

Six district Headquarters Towns, *viz.*, Peshawar, Mardan, Hazara, Kohat, Bannu and Dera Ismail Khan, are required to pay 75 per cent. of police expenditure incurred on police personnels employed in their areas.

### Financial position.—

The total income excluding opening balance and the expenditure of all the Municipalities and Notified Arrea Committees during the year under Report is as under:—

Local Body	Income	Expenditure
Municipalities ..	48,25,098	41,69,442
Notified Area Committees ..	6,68,087	5,60,275
Total ..	53,93,185	47,30,717

The closing balance of Municipalities and Notified Area Committees during the year 1951-52 stood at Rs. 14,29,451.

### Works.—

The local bodies used to send estimates of works to Public Works Department for checking and there was no central controlling authority to exercise control over works executed in different local bodies, therefore, the system in vogue was considered unsatisfactory. Engineering Section of local Government Department has been created under Engineer Advisor, an Officer of Class I to check estimates and in certain cases prepare plans on payment of fees which used to be paid to Public Works Department. This department in self supporting and has proved very useful for the execution of works. It is presumed that nowhere in Pakistan such Section is created and probably many provinces will follow us.

### Source of income.—

The main sources of income of the Municipalities and Notified Area Committees are given as under:—

1. Octroi.
2. Municipal land and property.
3. Cattle Fairs.
4. Licensing of Tongas.
5. Tehbazari fee.
6. Hawker Tax.
7. Roadside trees.
8. Water Rate.

### Sanitations.—

To improve sanitation of the towns all the Municipalities of the headquarters have spent large sums of money for the purchase

of refuse collectors for speedy removal of the city refuse which was previously lying on the main streets of the towns and created public nuisance. These Municipalities have also purchased fire fighting equipment for the safety of the cities. Peshawar Municipality has started using most modern machinery (Mechanical Sweeper) which was purchased for Rs. 50,000.

#### Reading Rooms.—

Public reading rooms have been opened in all these towns for the facility of citizens. Playgrounds are being provided to make the young generation healthy and sturdy.

#### Street lighting.—

On account of availability of electricity in the Province street lighting has been provided in all Municipalities and Notified Area Committees with the exception of Kulachi where kerosine oil lamps are used. Arrangements are also being made for the installation of electricity in this area.

#### Creation of new Notified Area Committees.—

During the year under report Notified Area Committee at Darband was created and nearly 1000 persons of Darband received the same facilities and amenities which are enjoyed by the residents of big cities. The proposal for formation of the following Notified Area Committees is receiving active consideration of the Provincial Government and it is hoped that they will start functioning in the next financial year:—

Name of Notified Area Committee	Population
1. Havelian	5,000
2. Pabbi	5,457
3. Akora	6,586
4. Shabqadar	7,142
5. Tangi	12,065
6. Utmanzai	10,257
7. Pharpur	4,661

The population figures quoted above will show that nearly 50,000 persons will be provided with necessary facilities and amenities in the near future.

Since the establishment of Pakistan the Local Bodies are taking keen interest to raise the standard of living of the resident of their areas.

MUHAMMAD YUNUS KHAN,  
for Secretary to Government,  
Local Government Department,  
North-West Frontier Province.
