## PART IV.—Constituent Village-tracts of Groups and Circles notified under the Burma Rural Self-Government Act, 1921

## PREFACE.

1. This preface has been written with reference to all the Gazetteers of the series, not for this volume in particular.

2. All the tables and other statistics in Parts I and II of the B Volumes of the Gazetteers have been prepared in the offices of the respective districts from their own records; we have referred to the Deputy Commissioner for corrections in numerous cases in which an apparent error has been noticed in the Census Office, but we could not accept responsibility for the accuracy of the figures. The vital statistics in Part II have been noted as differing in many cases from the corresponding figures in the provincial sanitary or health reports, but have generally been allowed to stand as submitted by the Deputy Commissioner.

3. Part III, which was also prepared in the District offices, is probably correct as a rule so far as it relates to the Census of 1921 and within the normal range of error of such a tabulation. There are doubtlessly a few errors still remaining in some districts in the list of existing village-tracts. The names of some village-tracts have no doubt been omitted and the corresponding population assigned to some other village-tracts; while on the other hand some hamlets which form only parts of village-tracts may have been listed as separate village-tracts. But persistent efforts have been made in the Census Office to remove these defects, and district officers have generally seconded these efforts willingly; the residue of error is a result of the defects in the records of village-tracts in most districts to which reference was made in the preface to the 1911 edition of this Gazetteer. The entries in the column 19 of the tables of Part III must always be regarded as approximate unless all the serial numbers of the table of 1911 are accounted for; efforts were made to get this column as correct as possible, but it would hardly be possible to achieve finality and in some localities it had to be given up. In many cases it has been reported that the village-tract represented by some name in the 1911 edition could not be discovered; but generally if a blank is shown in this column it may be supposed that the village-tract has been formed by the subdivision of some tract of 1911. In any particular case in which further enquiry is necessary it is suggested that an examination of the *Kwin* maps of the Land Records Department and of the corresponding assessment roll (which are required to

be divided according to the tracts of the headman who collect the revenue), will furnish the required information if carried through a series of years.

4. It should be noted that in Part III the columns for Christians include, besides persons of all races professing the Christian religion, all Europeans and Anglo-Indians whether they professed that religion or not.

5. The term *Normal Civil Population* used in Part III of the book is defined in Chapter II of the Census Report of 1921 and includes all the population of the town or ward except the classes separately shown in the table, such as military police or travellers. The staffs of hospitals, jails, etc., are counted as normal civil population although the in-patients, prisoners, etc., are not.

6. Slip-copying Register A of the Census of 1921, which is preserved in the record-room of each district, gives information similar to that of Part III of this volume for every hamlet in each village-tract.

# PAKŌKKU DISTRICT.

## PART I.—GENERAL INFORMATION.

### INTRODUCTION.

**Pakōkku.**—A district in the North-West Border Division of Upper Burma lying between 20° 48' and 22° 50' N. ; and 93° 59' and 95° 24' E. Its area is 6,210 square miles. Its population was 312,877 in 1891; 357,557 in 1901; 409,823 in 1911 and 465,771 in 1921.

The administrative subdivisions and townships in existence on the 1st April 1922 are shown in the statement on the next page. These arrangements have been in force since the 25th November 1916. Changes in the decade 1901-11 were described in the 1911 edition of this Gazetteer. Since the Census of 1911, the changes have been as follows:—

Local Government's Notifications.			Substance of change effected.
Department.	No.	Date.	
...	...	...	1014 13 acres practically given over to Myingyan District, <i>i.e.</i> the whole of the village tract of Bokdagon (No. 20 in the 1911 tables) with a population of 105 (86 in the tables), <i>vide</i> page 48. Pakōkku District Office Proceedings No. 98 of 1912. No notification was issued by the Local Government.
...	...	...	1318 acres assessed by the Myingyan District in 1913-14 given only to the Pakōkku District in 1914-15, <i>vide</i> pages 84 and 114 of Pakōkku District Office Proceedings No. 117 of 1913. The area given over comprises only portion of Swegyī and Weichi-In village-tracts. No populated parts were given over. No notification was issued by the Local Government.
...	...	...	Owing to change of district boundaries portions of kwins in Kyakat Kyun and Hnawbin villages given over in places to Sagaing District and also some lands from Pannyo village-tract from Sagaing District were given over to the Pakōkku District. The nett result was an increase of 328 acres along the Chindwin and Irrawaddy Rivers to the Pakōkku District, <i>vide</i> District Office Proceedings No. 103 of 1915. No notification was issued by the Local Government and the population was not effected by the changes.

N.B.—The decrease in the birth rate in 1919 and increase in the death rate for 1918-19 was mainly due to an epidemic of influenza and epidemic outbreaks of Cholera.

The figures in column 2 of 1921 are from the census of that year, and for earlier years from the census of 1911.

\* Includes Pakôkku Hill Tracts.

(1) The decrease in 1918-19 was due to a bad floating season which resulted in a smaller outturn of Lessee's timber.

(2) The decrease in 1920-21 is due to the fact that the figures relate only to 9 months from 1st July 1920 to 31st March 1921. This was rendered necessary owing to a change in the period of the Forest year which now runs from 1st April to 31st March.
