STATISTICAL HANDBOOK

OF

WEST PAKISTAN

Planning and Development Department
Government of West Pakistan

P R E F A C E

The "Statistical Handbook of West Pakistan" is a summary of the available economic and social statistics of West Pakistan. It covers a large variety of subjects including population; agriculture; health; communications; industries; fuel and power; elections; public finance and economic development; transportation; shipping etc. etc. It is designed to serve as a handy volume for statistical references. The sources from which the data has been compiled are indicated under each Table. For more detailed information, references may be made to the original source.

The data has been compiled on Provincial and Divisional basis, and, wherever possible, information has also been given on district basis.

I am grateful to the various Central, Provincial and semi-autonomous agencies who have supplied information for this publication. I am also thankful to Mr. M. Afzal, Director,

Bureau of Statistics, Government of West Pakistan, and his staff for undertaking the publication of such a useful booklet.

Any comments and suggestions for the improvement of this publication will be most welcome.

S. I. HAQUE,

Additional Chief Secretary,

Government of West Pakistan,

Planning and Development Department,

Lahore,

October 8, 1962.

Symbols and Equivalents.
