PREFACE.

THE Tables in this Volume contain ephemeral matter which it has been found undesirable to include in the text of the *Gazetteer of Zhob*.

Under the orders of the Government of India, the statistics are to be re-compiled and a new edition of this Volume brought out after each Census.

The Volume can also be expanded by adding to it in the interleaved blank forms any matter that the District and other Officers who use it may require to correct or supplement the text in the A Volume. This process is to go on till the Local Government considers revision of the text in the A Volume necessary, when all supplementary text matter embodied at each periodical revision will be incorporated in the new A Volume, and Volume B will revert to its original form as a Statistical Appendix.

C. F. MINCHIN,
MAJOR.

QUETTA, *December, 1906.*

1

The first thing I noticed when I stepped
out of the plane was a sense of relief.
The air was fresh and the sun was
shining brightly. I had been told
that the weather would be perfect.
I was not disappointed. The hotel
was exactly what I needed. The
rooms were clean and comfortable.
The food was delicious. I was
in luck. I had found a great
place to stay. I was going to
enjoy my trip. I was going to
have a great time. I was going
to have a great vacation. I was
going to have a great holiday.
I was going to have a great
time. I was going to have a
great vacation. I was going to
have a great holiday. I was
going to have a great time.

August	0.99	0.08
September	0.07	0.03	0.11

Note 1.—The figures cover various periods ending with 1904.

Note 2.—The highland districts of Baluchistan receive most of their annual rainfall during the winter months, namely October to March, and the months in this table have been so arranged as to elicit this fact.

Note 3.—No record of the rainfall was kept at Hindubagh and Kila Saifulla previous to 1901 and the period between 1901 and 1904 was one of general drought, and it is possible that these figures do not represent the true condition of the country in more favourable seasons.

TABLE IX.—Principal Routes in the Zhob District.

LIST OF ROUTES.

- I.—Khánai-Hindubágh-Fort Sandeman road.
- II.—Loralai-Fort Sandeman-Khajúri Kach road.
- III.—Fort Sandeman-Dahána Sar road.
- IV.—Fort Sandeman-Músa Khél-Kingri route.
- V.—Hindubágh-Kamar-ud-dín Káréz-Fort Sandeman route.

NOTES—(1) The route lists are intended primarily for District officials. They merely indicate the more important routes used by caravans etc., and make no pretension to be exhaustive. Distances except when drawn from published route lists, are approximate only. A distance, not taken from a public route list, is marked by the letter *c.*, i. e., circa.

(2) The following nomenclature has been used :—

Metalled Road }
Unmetalled Road } indicates that a road is fit for carts.

Bridle Path indicates a made path fit for camel and other pack transport.

A *Track* is unmade, but usually fit for camel transport.

A *Footpath* or *path* is ordinarily used by runners and footmen but is generally fit for horses or donkeys, and is traversed even by loaded camels in some cases.

TABLE X.—TRAVELLERS' BUNGALOWS.

There are three kinds of travellers' bungalows in the district, namely (1) Dák Bungalows; (2) Rest Houses; and (3) Political Bungalows and Civil and Military Works Inspection Bungalows. The following orders relating to them (1905) are reproduced briefly below. :—

No permission is required for the occupation of Dák Bungalows and Rest-Houses. All Government servants, European and Indian, drawing Rs. 100 per mensem and over, náib tahsildárs, European and private gentlemen, native commissioned officers and European officers, are entitled to shelter. Other Government servants in superior service drawing less than Rs. 100 per mensem, as well as European officers, are entitled to shelter in a special room set apart in the compound. Sepoys, police, menials and native travellers, other than those mentioned above, are entitled to accommodation free of charge in the shelters attached to the out-houses. The charge is R. 1 and Rs. 8, respectively, for each person occupying a Dák Bungalow or Rest-house for every 24 hours or part thereof. Servants of such persons are entitled to accommodation in the out-houses free of extra charge. Each person occupying the special room in a Dák Bungalow already referred to is required to pay As. 2 and An. 1 in a Rest-House for the same period. There is no limit to the period of occupation. Food is supplied in the Dák Bungalows at the rates laid down in the tariff hung up in the rooms, unless terms are specially agreed upon. The *khánsáma* at the bungalow, if required, also cooks provisions furnished by travellers, the charge for cooking, including firewood, being As. 8 per day for each person.

Dák Bungalows and Rest Houses.

Travellers halting in the Rest-Houses have to make their own arrangements for supplies and for cooking, but, where possible, the *muhtasib* or levy man in charge provides on payment wood, *bhása*, etc.

Political Bungalows and Civil and Military Works Inspection Bungalows are houses specially reserved for departmental officers on tour. The gazetted officers of the department to which the bungalow belongs have prior claims to accommodation in the order of their seniority; but, subject to this rule, the officer in charge of an inspection bungalow may lend it, without payment, to any gazetted officer of any Government department, travelling on duty. Officers in charge of bungalows are also authorized to permit non-officials and officials not travelling on duty to occupy inspection bungalows, when available, for a period not exceeding seven days.
